Ruby, Ruby on Rails, Sinatra, HTML, CSS, Javascript, jQuery, Underscore.js, Backbone.js, Rspec, Capybara, Jasmine, SQL, Postgresql, Git, Github, Heroku, AWS, Bash

EXPERIENCE

GENERAL ASSEMBLY | New York, NY

Feb. 2014 - May 2014

Web Development Immersive Student

- Created an application that gives users a snapshot of what's going on in their NYC borough using multiple APIs (MTA, NYTimes, Google Places, Google Search, Wunderground, IP-API)
- Created a social networking application for NYC dog owners and dog walkers using Bcrypt for user authentication that allows users to search for and contact one another
- Built applications using SCRUM and implemented version control using GIT
- Used TDD and BDD to ensure application functionality

UNITED NATIONS Department of General Assembly and Conference Management | New York, NY

Sept. 2010 - Jan. 2014

Information Technology Assistant

- Created a pilot program for mobile device use (focusing on iPad) in our enterprise environment to assist with migration from paper to digital document consumption as well as provide alternatives to laptop use (program successful and iPads continue to be ordered and deployed to staff)
- Trained and supervised local staff of 70 in customer service and use of technology to provide assistance to the approximately 17,000 attendees at the DOHA 2012 - UN Climate Change Conference in Doha, Qatar while part of the Integrated Sustainable Papersmart Solutions team

CHARTIS INSURANCE | New York, NY

Oct. 2009 - Aug. 2010

Continuing Education Analyst

- Managed CE Department while manager was on Leave of Absence
 - Reorganized and administered digital migration of Continuing Education file system
 - Organized and ran continuing education seminars
-
